Events

Rokujizo

There was an execution ground near Saigyō Bashi Bridge in the Kamakura Period. It remained a waste ground called "Kekachi Batake" until the early Meiji Period. Later six Jizo statues were voluntarily placed for sinners' souls. It is said that Rokujizo will save people from six human sufferings and many people still visit to offer flowers. There is an annual memorial service held on September 23rd.

Border Festival

It is an annual event held in May. You will meet many "lucky things" if you are in striped (border) pattern clothes. "Fill up Kamakura and Yuigahama Street with Stripes!" as a motto, the town will overflow with striped patterns. The best border award will be granted to the best dresser.

Annual Rite of Kuzuharaoka Jinja Shrine

This is the 1st Summer Festival held in Kamakura on the 1st Sunday in June. Sacred Mikoshi carriers, Dashi floats, and Tekomai dances will be parading for over five hours around Yuigahama Shopping Street. Various booths will line up around Rokujizo and many visitors are expected every year.

free Wi-Fi

Free Wi-Fi is available around historical Omachi station site where there was a station of Enoden Line until the early Showa Period. Now there is a replica of the train, and it is open to the public as a rest stop where you can watch the running Enoden Line trains right very close.
